

VAN DER VALK
AMSTERDAM - AMSTEL

FACTSHEET

EAT MEET SLEEP REPEAT

P.S. DON'T FORGET TO HAVE A GOOD TIME!

WHERE IT ALL STARTED

Van der Valk: over 100 hotels and restaurants with just as many ambitions. With a family member in the management of almost every hotel, Van der Valk is a unique family business worldwide.

When Nicolaas van der Valk purchased farm “de Gouden Leeuw” in Voorschoten in 1862, he could not expect that this purchase would leave its mark on the Dutch hospitality world. For all the children of Van der Valk it meant that they had to start working early to build on the success of the family business. Nowadays, most of the Van der Valk hotels are still managed by family members, which makes it a unique family business worldwide.

Employees often regard to Van der Valk as their second home, but guests also feel welcome because of the familiar atmosphere the hotels express.

In 2018, Thymen and Lucie-Simons Luiten (4th generation Van der Valk) opened the first Van der Valk hotel of Amsterdam:
Van der Valk Hotel Amsterdam - Amstel.
